

Aquarius

The Aquarius, the bruiser that is impervious to external influences

The popular Aquarius is a sturdy, very reliable receiver that is very resistant to external influences.

The compact, cast casing makes it 100% waterproof (IP 68), incredibly strong and very reliable to use. The casing absorbs and also damps vibrations. What is more, it is particularly easy to install. The compact Aquarius is the ideal receiver for vehicle applications, industrial applications, agricultural equipment and infrastructure solutions for buildings.

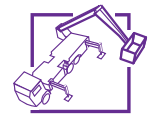

- Completely resistant to damp and dirt (IP 68)
- Very high level of certification (E4 Automotive/95-54-EC/KEMA/EMC/CE)
- Optimum operational safety
- Very quick reaction time (0.2 sec.)
- Very powerful and compact
- Standard up to 7 hand-held transmitters can be programmed simultaneously
- 2.5 metres of cable already attached
- Very simple and certain installation

Aquarius

Technical specifications	
Frequency	433,92 MHz
Reaction time	0,2 sec.
Power supply	8 - 45 Vdc
Max. load	4 Amp.
Power consumption	17 mA
Resistance to temperature	From -30C° to 75C°
Reach in normal conditions	Minimum 50 to 100 metre reach
Resistance to damp and dirt	IP 68
Sizes	150 x 95 x 30 (L x B x H)
Weight	480 grams
Protection against overload	10 Amp.
Cable length	2,5 metres
Maximum # transmitters	Up to 7 standard
Number of functions	Max. 4 + emergency stop
Key hold-down function	Optional
Accessories	
Antenna extension cable 1-2 and 5 metres	Optional

Indoor-Infra

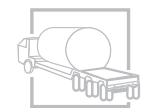

Vehicle applications

Industrial

Agriculture

Axle steering

The Aquarius receiver is completely resistant to damp and dirt (IP 68)

For use in combination with the Tyro Sedna and Tyro Musca hand-held transmitters

KEMA 
e4
